# HEALTH AND SOCIAL CARE

As public services are being demolished here in the UK, and the NHS has taken the brunt of cuts due to austerity measures, it is important that our Health and Social Care list reflects the ramifications of these cuts and demonstrates there is an alternative not only in the UK but globally.

We have a growing list in public health and health and social care, with a range of textbooks, monographs and policy-focused books that all aim to push forward the boundaries of teaching, theory, policy and practice. These include *Health Divides, Inequality and African-American Health, The Health Debate, Dismantling the NHS, A New Health and Care System* and the *Sociology of Health Professions* series.

We are actively seeking to publish work that covers areas such as global health, health inequalities and research into policy and practice.

If you are interested in writing for our Health and Social Care list, please contact [laura.vickers@bristol.ac.uk](mailto:laura.vickers@bristol.ac.uk) or visit our information for authors page to download our proposal guidelines.
